Kate,

I think the first attachment is the document you're looking for.

"All relevant planning documents" is kind of subjective, and I think there are too many incremental files in my directory for them all to be really useful. It's kind of a mess actually.

Anyway, here's the entire contents of my QA directory for the NJ DEP project. Please let me know if you need help wading through any of this.

Thank you very much,

Andy

Subject: Copies of NJ docs

Hi Andy

I have a copy of the NJ QAPP (IEIB-010-NERL-NJDEP-R2-PFAS-QAPP (quite good). I see you have already pioneered the idea of study plans rather than, or at least separate from QAPPs. Good. That's what I'm trying to formalize.

In reading I see there are a number of other important docs relevant to the NJ planning.

For example:

The information describing the sample study area is covered in the previously prepared study plan entitled "Detection, Evaluation, and Assignment of Multiple Poly- and Perfluoroalkyl Substances (PFAS) in Environmental Media from an Industrialized Area of New Jersey" revised August 23, 2017. Please refer to the study plan document to access all Figures and Tables described in the following "Sampling Approach" section.

Could you send me a copy of all the relevant planning documents, including any NJ has please? Alternatively, you could post them on the One Note New Jersey project QAPP page, which is where I would put them.

Thanks
